

Eseosa Owen Omo-Enabu

Address: Wuse Zone 3, Abuja, Nigeria • **Phone:** +234 811 3623 694 • **Email:** eseosaowen200@gmail.com • **Website:** <https://owencreate.com> • **GitHub:** <https://github.com/EseosaOwen>

Full-stack developer with 5 years building and selling software products, from client systems across hospitality, healthcare and real estate to two independent SaaS products. First Class BSc IT, Middlesex University London

Skills

Core stack: React JS • TypeScript • Node.js • Express.js • MongoDB • REST APIs

Front-end: Redux and React Query • Emotion (CSS-in-JS) • Tailwind CSS • HTML • CSS • JavaScript

Back-end and Infrastructure: Payment Integrations • Authentication and security • Systems Design • AWS (familiar) • Git • Docker

Experience

Founder and Lead Developer | PuissantDev | OCTOBER 2024 – PRESENT

- Architected and delivered full-stack web applications for clients across hospitality, healthcare, real estate, and retail, owning the stack from data modeling and REST API design through deployment.
- Conceived, architected, and built Involey within PuissantDev, a SaaS handling subscription billing, customer growth insights, and structured business data, now at 100+ signups.
- Led sales and client acquisition alongside development: pitching, closing, and managing relationships directly.

Full Stack Developer and Tutor | Forward Edge Consulting, Lagos, Nigeria | JUNE 2024 – PRESENT

- Co-building Forvention, a cybersecurity awareness and training SaaS, leading full-stack development and system architecture from the ground up.
- Built and shipped client web applications in parallel, maintaining delivery across simultaneous engineering workstreams.

Part-Time Coding Instructor | NIIT | JUNE 2023 – APRIL 2024

- Taught full-stack web development to over 60 students across three cohorts over almost a year.
- Conducted code reviews, explained architectural tradeoffs, and provided hands-on technical mentoring.

Independent Software Consultant | JULY 2021 – OCTOBER 2024

- Delivered web applications across multiple industries with a 95% client satisfaction rate, managing full project lifecycle from scoping to deployment.
- Built end-to-end systems involving payments, authentication, and third-party API integration.

Education

Middlesex University, London • BSc Information Technology • First Class • 2023 – 2024

National Institute of Information Technology, Abuja • Professional Diploma, Software Engineering • 2021 – 2023

Projects

- **Involey:** Mobile-first SaaS helping small businesses manage payments, track finances, and maintain business clarity. 100+ signups. <https://involey.puissantdev.tech>
- **Customer retention system:** Built and sold a psychology-backed retention platform for restaurants, covering customer data collection, targeted re-engagement campaigns, loyalty tracking, and repeat visit analytics. Sold to multiple restaurant clients through direct outreach.
- **Pharmacy e-commerce:** Full e-commerce pharmacy system with checkout, payment integration and pharmacist dashboard.
- **Forvention:** Cybersecurity awareness and training platform. Role-based modules, interactive scenarios, compliance reporting. In active development. *Full project list and links at* <https://owencreate.com>
