

Eseosa Owen Omo-Enabu

Address: Wuse Zone 3, Abuja, Nigeria • **Phone:** +234 811 3623 694 • **Email:** eseosaowen200@gmail.com • **Website:** <https://owencreate.com> • **GitHub:** <https://github.com/EseosaOwen>

Full-stack developer with 3+ years building and selling software products — from client systems across hospitality, healthcare and real estate to two independent SaaS products. First Class BSc IT, Middlesex University London.

Skills

Front-end: HTML • CSS • JavaScript • TypeScript • Tailwind CSS • React JS • Redux and React Query

Back-end and Database: Node JS • Express JS • Mongo DB • Rest APIs • Payment Integrations • Authentication and security

Others: AWS (familiar) • Git and Version Control

Experience

Lead Developer | PuissantDev | AUGUST 2024 – PRESENT

- Led full-stack development and architecture for clients across hospitality, healthcare, real estate, and retail — achieving 30% increase in client satisfaction and 25% growth in referrals.
- Led sales and client acquisition alongside development — pitching, closing, and managing relationships directly.

Full Stack Developer and Tutor | Forward Edge Consulting, Lagos, Nigeria | JUNE 2024 – PRESENT

- Delivered full stack development training to bootcamp participants, with **90%** of attendees reporting significant improvement post-program.
- Built web applications alongside teaching responsibilities.

Freelance Web Developer | Self-Employed | MAY 2022 – PRESENT

- Delivered web applications across multiple industries with 95% client satisfaction rate and 30% average increase in user engagement.

Education

Middlesex University, London · BSc Information Technology · First Class · 2023 – 2024

National Institute of Information Technology, Abuja · Professional Diploma, Software Engineering · 2021 – 2023

Projects

- **Involey** — Mobile-first SaaS helping small businesses manage payments, track finances, and maintain business clarity. 100+ signups. <https://involey.puissantdev.tech>
- **Forvention** — Cybersecurity awareness and training platform. Role-based modules, interactive scenarios, compliance reporting. In active development.
- **Pharmacy e-commerce** — Full e-commerce pharmacy system with checkout, payment integration and pharmacist dashboard.
- **Customer retention system** — Built and sold a psychology-backed retention platform for restaurants — customer data collection, targeted re-engagement campaigns, loyalty tracking, and repeat visit analytics. Sold to multiple restaurant clients through direct outreach.
- **IoT Smart Parking System** — Hardware-integrated solution combining IoT sensors with a React Native mobile application and full admin dashboard.
